

DATABASE SCHEMA REFERENCE

All Columns · Data Types · Constraints · Relationships

159 Tables · 11 Functional Modules · Columns grouped by role within each table

Legend

PK	Primary Key — Identity/auto-increment column
FK	Foreign Key — References another table
NN	NOT NULL constraint — Required field
●	Nullable — Optional field
■	Parent → Child relationship note

1. Masters & Configuration ■	33 tables
2. Customer & Sales	23 tables
3. Purchase & Supplier	18 tables
4. Inventory & Stock	18 tables
5. Job & Production	13 tables
6. Delivery & Logistics	6 tables
7. Service & Maintenance	14 tables
8. Quality Control	7 tables
9. Finance & Accounts	13 tables
10. Drawing & Parts	3 tables
11. Automation & Tracking	11 tables

MODULE 1 — MASTERS & CONFIGURATION ■

33 tables

Company & System Setup

■ *Company_Master* → *S_Menu_Master* → *S_Rights_Master*■ **Company_Master**

44 columns

Document No / Code

[NN] **CM_Code** varchar(50)● **CM_State_Code** varchar(50)● **CM_Pan_No** varchar(50)● **IFSC_CODE** varchar(50)● **Invoice_Formate** varchar(50)

Date / Time

Name / Description / Address

[NN] **CM_Name** varchar(350)● **CM_Address1** varchar(250)● **CM_Address2** varchar(250)● **CM_Address3** varchar(250)● **CM_Address4** varchar(250)● **CM_Address5** varchar(250)● **CM_Email_ID** varchar(50)● **CM_State** varchar(250)● **CM_Phone_off** varchar(50)● **CM_Phone_Res** varchar(50)● **Bank_Name** varchar(500)● **Website** varchar(500)● **Sales_PhoneNo** varchar(max)● **Sales_EMail** varchar(max)● **Quotation_PhoneNo** varchar(max)● **Quotation_EMail** varchar(max)● **Sales_website** varchar(max)● **Quotation_website** varchar(max)● **Purchase_PhoneNo** varchar(max)● **Purchase_EMail** varchar(max)● **Service_Email** varchar(500)

Amount / Financial

● **CM_GST_No** varchar(50)

Quantity / UOM

● **CM_Bank_Account1** varchar(50)● **CM_Bank_Account2** varchar(50)● **Account_Name** varchar(500)

Type / Category / Config

● **CM_Type** varchar(50)● **CM_PO_Type** varchar(33)

Status / Flag

● **CM_Status** char(10)

File / Attachment

Image

Audit / Tracking
● CM_Created_by varchar(50)
● CM_Created_date datetime
Other / General
[NN] CM_ID int
● CM_Sub_Head varchar(50)
● CM_Subject_To varchar(50)
● Branch varchar(500)
● CM_Quotation_Formate varchar(50)

■ Year_Table

2 columns

Primary Key
[PK] Id int
Other / General
● Year varchar(50)

■ S_Menu_Master

11 columns

Date / Time
● MM_CreatedDate datetime
Name / Description / Address
● MM_Menu_Name varchar(250)
● MM_Display_Name varchar(550)
Type / Category / Config
● MM_Menu_Order int
● MM_MenuLevel int
Status / Flag
● MM_Status varchar(50)
Other / General
MM_ID
● MM_Module varchar(50)
● MM_ParentID int
● MM_Icon varchar(250)
● MM_Createdby varchar(50)

■ S_Rights_Master

11 columns

Status / Flag
● RA_Status varchar(50)
Audit / Tracking
● RA_Created_Date datetime
Other / General
[NN] RA_ID int
● RA_Menu_ID int
● RA_Rights_ID int
● RA_Display int
● RA_Save int
● RA_Edit int

- RA_Delete int
- RA_Createby varchar(50)
- RA_Print int

■ S_Grid_Setting

11 columns

Primary Key	
[PK] GS_ID	int
Name / Description / Address	
● GS_Form_Name	varchar(250)
● GS_Grid_Name	varchar(50)
● GS_Column_Name	varchar(250)
● GS_Display_Name	varchar(250)
Quantity / UOM	
● GS_Width	int
Status / Flag	
● GS_Status	char(10)
Audit / Tracking	
● GS_Created_by	varchar(50)
● GS_Created_Date	datetime
Other / General	
● GS_Summary_YN	int
● GS_Column_Visibility	int

■ S_Style_Setting

14 columns

Name / Description / Address	
● SS_Object_Name	varchar(50)
Quantity / UOM	
● SS_Size	varchar(50)
Status / Flag	
● SS_Status	char(10)
Audit / Tracking	
● SS_Created_by	varchar(50)
● SS_Created_Date	datetime
Other / General	
● SS_Id	int
● SS_Font	varchar(250)
● SS_Font_Style	varchar(50)
● SS_Fore_Color	varchar(50)
● SS_Back_Color	varchar(50)
● SS_OnFocus_Color	varchar(50)
● SS_OnLossFocus_Color	varchar(50)
● SS_OnFocus_BGColor	varchar(50)
● SS_OnLossFocus_BGColor	varchar(50)

■ Reference_Group

6 columns

Name / Description / Address	
● RG_vDescription	varchar(50)

Status / Flag
● RG_vStatus varchar(50)
Audit / Tracking
● RG_vUpdatedBy varchar(50)
● RG_dUpdateDate datetime
Other / General
RG_iID
[NN] RG_vCode varchar(50)

■ **ReferenceGroup_Value**

8 columns

Name / Description / Address
[NN] RGV_vDescription varchar(250)
Status / Flag
● RGV_vStatus varchar(50)
Audit / Tracking
● RGV_vUpdatedBy varchar(50)
● RGV_dUpdateDate datetime
Other / General
[NN] RGV_iID int
● RGV_iRG_ID int
● RGV_Line varchar(50)
[NN] RGV_vCode varchar(50)

■ **Terms_Condition_1**

11 columns

Primary Key
[PK] Row_Id int
Name / Description / Address
● Type_Name varchar(500)
Type / Category / Config
● Type_ID int
Status / Flag
● Status char(10)
Audit / Tracking
● Created_Date datetime
● Created_By varchar(50)
● Updated_Date datetime
● Updated_By varchar(50)
● Updated_System varchar(50)
Other / General
● Terms_Condition varchar(max)
● Created_System varchar(500)

■ **Approval_Master**

8 columns

Foreign Key / Reference
[FK] ● Created_by varchar(50) FK → User_Master.UM_Username
Type / Category / Config

● App_Level int

Status / Flag

● Status varchar(50)

Audit / Tracking

● Created_Date datetime

Other / General

● ID int

● Form varchar(50)

● Department varchar(50)

● App_User varchar(50)

User & Employee

■ User_Master referenced across all transaction modules

■ User_Master

15 columns

Name / Description / Address

● UM_Full_Name varchar(50)

[NN] UM_User_Name varchar(50)

● UM_Company int

● UM_Store_Name varchar(500)

● Department_Name varchar(500)

Status / Flag

● UM_Status varchar(50)

Audit / Tracking

● UM_Created_By varchar(50)

● UM_Created_Date datetime

Other / General

[NN] UM_ID int

● UM_Password varchar(50)

● UM_Rights int

● UM_Store_Id int

● Team varchar(100)

● view_all varchar(100)

● Department_id int

■ Employee_Master

23 columns

Document No / Code

● EM_Code varchar(50)

● Contact_No varchar(500)

● Adhar_No varchar(500)

Date / Time

● Join_Date datetime

● EM_DOB datetime

● Releving_Date varchar(500)

● Deleted_Date datetime

Name / Description / Address

● EM_Employee_Name varchar(50)

● Address varchar(500)

● EM_Email_ID varchar(50)

● **EM_Company** varchar(50)

Amount / Financial

● **Incharge_Id** int

● **Incharge_Name** int

Status / Flag

● **EM_Status** char(10)

Audit / Tracking

● **EM_Created_by** varchar(50)

● **EM_Created_Date** datetime

Other / General

● **EM_Department** varchar(50)

● **Contract_Person** varchar(50)

● **EM_Designation** varchar(50)

● **EM_Team** varchar(50)

● **EM_Rep_Person** varchar(450)

● **deleted_By** varchar(500)

[NN] **EM_ID** int

Customer Master

■ *Customer_Master* → Sales, Service, Job, Quotation

■ Customer_Master

18 columns

Document No / Code

● **CM_Code** varchar(50)

● **CM_PAN_No** varchar(500)

Name / Description / Address

[NN] **CM_CustomerName** varchar(500)

[NN] **CM_Address** varchar(500)

● **CM_City** varchar(500)

● **CM_StateCode** varchar(50)

● **CM_State** varchar(500)

● **CM_Pincode** varchar(50)

● **CM_Phone1** varchar(50)

● **CM_Phone2** varchar(50)

● **CM_Email** varchar(50)

● **CM_Website** varchar(50)

Amount / Financial

● **CM_GSTNo** varchar(500)

Quantity / UOM

● **CM_Country** varchar(500)

Status / Flag

[NN] **CM_Status** char(1)

Audit / Tracking

[NN] **CM_CreatedDt** datetime

Other / General

CM_Id

[NN] **CM_User** varchar(50)

■ State_Master_1

4 columns

Document No / Code
● State_Code varchar(50)
Name / Description / Address
● State_Name varchar(500)
Status / Flag
● Status char(10)
Other / General
Id

■ Contract_Master

10 columns

Document No / Code
● Contract_Code varchar(50)
● Phone_No varchar(50)
Date / Time
● Deleted_Date datetime
Name / Description / Address
● Contract_Name varchar(500)
● Address varchar(500)
Status / Flag
● Status char(10)
Audit / Tracking
● Created_Date datetime
● Created_By varchar(50)
Other / General
Id
● Deleted_By varchar(50)

Supplier Master

■ *Supplier_Master → Purchase, GRN, Payment*

■ Supplier_Master

22 columns

Document No / Code
[NN] SM_Code char(10)
● SM_ARN_RefNo varchar(500)
● SM_PAN_No varchar(500)
Name / Description / Address
[NN] SM_SupplierName varchar(500)
[NN] SM_Address varchar(500)
● SM_City varchar(500)
[NN] SM_State varchar(500)
● SM_Pincode varchar(50)
[NN] SM_Phone1 varchar(50)
● SM_Phone2 varchar(50)
● SM_Email varchar(50)
● SM_Website varchar(50)
● SM_BankName varchar(500)
● SM_StateCode varchar(50)

Amount / Financial
● SM_GSTNo varchar(500)
Quantity / UOM
● SM_Country varchar(500)
● SM_AccountDetails varchar(500)
Status / Flag
[NN] SM_Status char(1)
Audit / Tracking
[NN] SM_CreatedDt datetime
Other / General
SM_Id
● SM_Grade char(10)
[NN] SM_User varchar(50)

Item / Part Masters

■ *Item_Master* → *BOM_Master*; *Item_Master* → *Stock/Purchase/Sales*

■ **Item_Master**

77 columns

Foreign Key / Reference
[FK] IM_ID FK → <i>Item_Master</i> . IM_ID
